TOURNAMENT APPLICATION PROCESS

You are a tournament organizer who wants to host an event in PUBG MOBILE. In this document we will explain the next steps which will help you get the license for your tournament.

Read this document:

[PUBG MOBILE Tournament License Guideline.pdf](#)

Step 1

Sign up and login with your account at
<https://partner.esports.pubgmobile.com/>

Step 2

Fill up your organization info if you are a first-time login user. Ensure to fill up correct information.

Step 3

Fill out all required tournament information. Please provide as detailed info as possible.

Step 4

Ensure all the information filled out is correct before submitting the application.

Step 5

Your application will be reviewed. The process usually will take **from 3 -5 working days**.

Step 6

Once the review process is concluded, you will receive an email about the status.

- a. If your application was **rejected**, you will see the reason for the rejection in the email. If it is possible to fix the issue mentioned in the email, submit a new application for your event.
- b. If your tournament application plan was **approved**, you must complete some extra steps before you can run your tournament. (Check next steps below)

VISUAL ASSETS

Tournaments which has livestream and with prize pool more than USD 3,000 will have to provide visual assets for the team to review. Visual assets such as Social Media visual package or Broadcast visual package are required to be prepared for approval before your tournament starts, the process takes up **3~5 business working days**.

The organizer must include the PUBG MOBILE Esports or PUBG MOBILE logo in the visual.

We encourage you to use PUBG MOBILE Esports logo in your visual.

Ideally, the organizer must place the CI Logo at the bottom left in the visual for social media and broadcast visual package.

Kindly use only PUBG MOBILE Assets in your visual.

We encourage you to use PUBG MOBILE Esports logo in your visual.

Choose to put only PUBG MOBILE Esports logo or PUBG MOBILE logo.

TOURNAMENT APPLICATION PROCESS

You are a tournament organizer who wants to host an event in PUBG MOBILE. In this document we will explain the next steps which will help you get the license for your tournament.

AFTER YOUR TOURNAMENT PLAN IS APPROVED

- After your tournament plan is approved, you are able to request for room card supports.
- The room cards will be provided based on your tournament schedule and format stated in your tournament plan.

When the tournament ends, you must fill out the "After-report". If you fail to fill out the "After-report" we won't be able to get you a PUBG MOBILE tournament license for your next tournament.

Thanks for organizing the tournament in PUBG MOBILE!

ROOM CARD SUPPORT

After completing all application process on the tournament application website, the organizer will be granted the possibility to request the room cards by providing the UIDs of host accounts.

The tournament organizer who did received a tournament application license can request to get room cards for hosting the matches of the event.

Room Cards will only be provided based on the tournament schedule and format.

Requirements:

1. PUBG MOBILE tournament license (Approval for tournament plan, tournament schedule and tournament format.)
2. Your tournament may feature a broadcast of the event.
3. Access to PUBG MOBILE accounts which will be used to host rooms.

KRAFTON

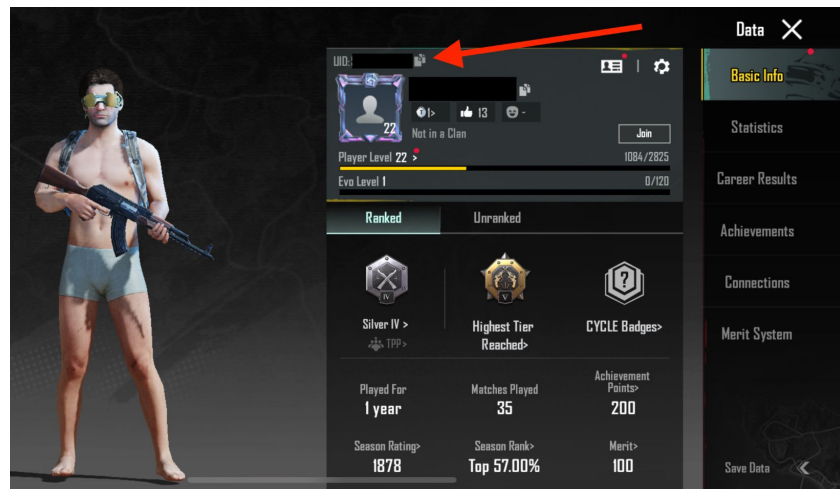

**LEVEL
INFINITE**

**LIGHTSPEED
STUDIOS**

© 2026 KRAFTON, Inc. ALL RIGHTS RESERVED. © 2019-2026 Proxima Beta Pte. Limited. ALL RIGHTS RESERVED.

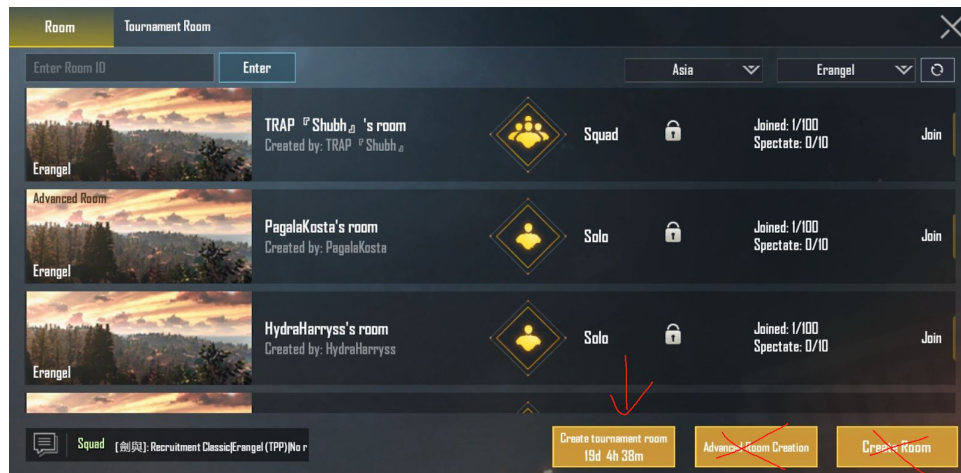

HOW TO OBTAIN UID

1. Login into the account which will be used to host the matches
2. Click on your profile icon (*top left corner*)
3. Copy the UID located on top of your profile (*Click on the copy icon*)
4. Provide the list of collected UIDs to request the room cards and amount of room cards needed for the tournament.
5. 1 room card could only be used once for one account and will enable room card creation for 7 days.

HOW TO REDEEM ROOM CARD

1. Fill in the required details at <https://www.pubgmobile.com/redeem>
2. Check the 'mailbox' and get the card to 'Inventory'
3. Go to 'Inventory', find the tournament card and use it. Then you are able to create Tournament custom room using this account.

Note:

1. Please prepare one phone with PUBG MOBILE game & account.
2. Please make sure you are using the room card for your tournament. "Normal room card" and "Advanced room card" do not have esports settings.
3. Only mobile devices can create room with the provided room card, PCOB just able to join the room.

HOW TO ALLOW SPECIFIC PLAYERS JOIN ROOM

1. You must be the host of the room.
2. The actions below must be done on the host's mobile device.

Download TickOutList.json

Step 1

Replace the Player UID in the JSON file with your Player UID without changing the JSON format

```
{
  "uid_list":
  [
    "XXXXXXXXXX",
    "YYYYYYYYYY",
    "ZZZZZZZZZZ",
    "AAAAAAA"
  ]
}
```

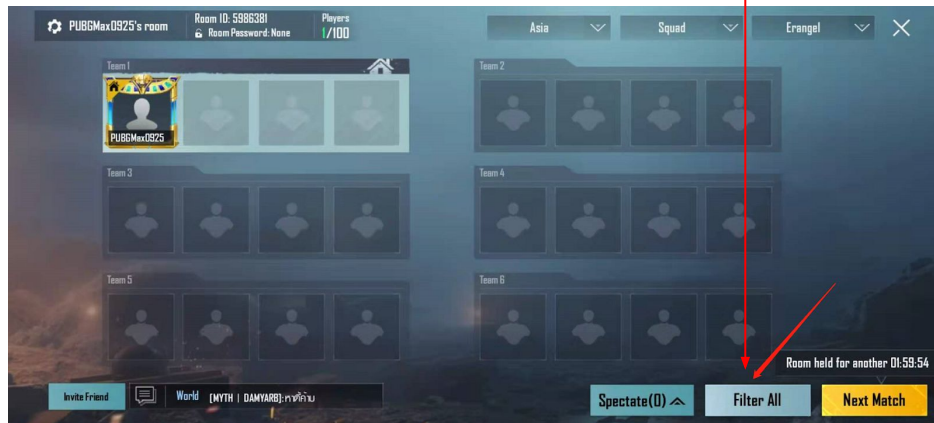

Please make
sure the last
UID without
"," at the end.

Step 2

Put the TickOutList.json under:
C:\Users\User\AppData\Local\ShadowTrackerE
xtra\Saved\SaveGames\RoomTickOutList

Step 3

Host press "Filter All" button at lobby bottom
left to filter the player not in the JSON white list

PCOB SUPPORT

Tournament that **features a livestream** is capable of requesting PCOB support in the following way:

Share an email request with title “**PCOB Access for *tournament name***” to jennifer@levelinfinite.com with CC to micahli@global.tencent.com with an excel file containing information of the spectator accounts.

Download the Excel file and fill in the details required: [PCOB_Your Tournament Name.xlsx](#)

Full guideline on how to correctly apply for PC OB and how to use it and live match data API after getting whitelisted is available here: [\[PUBG MOBILE\]PC OB Guideline.docx](#)

Requirements:

1. PUBG MOBILE tournament license (***Approval for tournament plan, assets, tournament schedule and broadcast links are approved***)
2. Your tournament ***features a broadcast*** of the event.
3. Access to PUBG MOBILE accounts which will be used to host rooms.
4. PCOB Client downloads will only be shared after the request has been approved via email.
5. Your request may get rejected if your tournament doesn't fit to the requirements.

IMPORTANT NOTE

Please separate your Facebook account for login PC OB & Game client (as host or play). If the game client's version is larger than the PC OB client, once your facebook account login game client, you are not able to login PC OB client anymore.

You need to get the OpenIDs of each facebook or wechat account from your team and provide them to PUBG MOBILE Esports team, each account has one unique OpenID.

One OpenID can only login 1 PC OB client, so if you need 8 PC OB accounts to be added to white list, please prepare 8 Facebook account and get the 8 openIDs to us.

HOW TO INSTALL PCOB

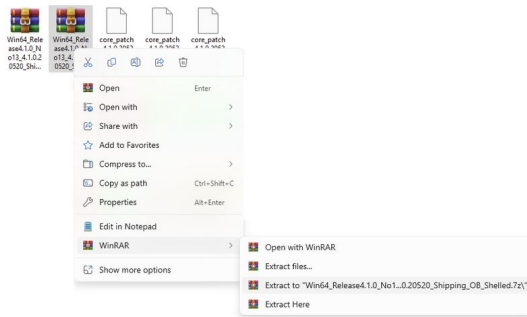

Step 1

Download the PCOB clients. Example of the PCOB client files will look like this.

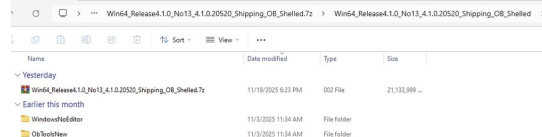

Step 2

Extract the first file. See example below.

Step 3

The second file do not need to extract. Place it in the folder that you've just extracted.

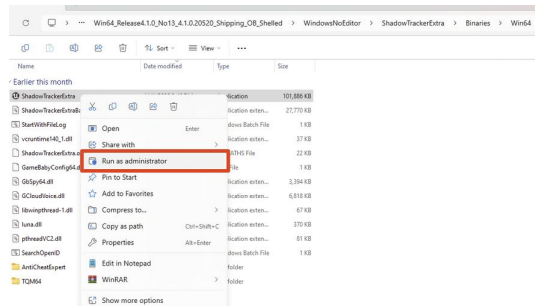

HOW TO START THE PCOB

Step 1

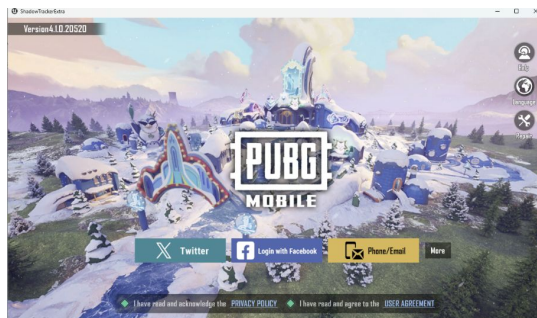

Find

"\\WindowsNoEditor\\ShadowTrackerExtra\\Binaries\\Win64" folder, find ShadowTrackerExtra and "Run as Administrator".

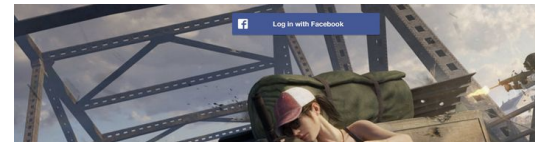

Step 2

A client will pop up and you will be able to see the Login page. Click Login with Facebook.

Step 3

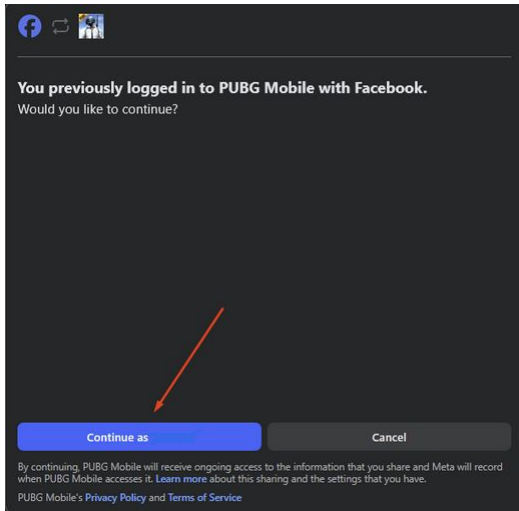

This page will pop up on your browser, click Login with Facebook button.

HOW TO START THE PCOB

Step 4

Click Continue in order to be able to access.

Step 5

You will be able to access the client once the OpenID has been unlocked.

SLIDE 25 FOR FACEBOOK LOGIN

SLIDE 28 FOR WECHAT LOGIN

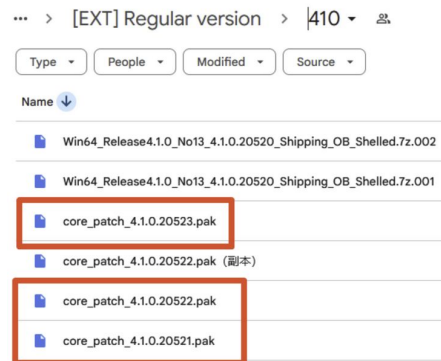

ADDITIONAL STEPS FOR PATCH FILES

This step is required if there is any additional patch files to be included to the PCOB

Step 1

If there is any additional patch files required to be included in the PCOB for fixing bugs, please download the necessary files from the given folder link together with the main PCOB client.

Example for patch files

Step 2

Place the patch files into this location

*This PC>Disk>User>User name>App
Data>Local>ShadowTrackerExtra>Save
d>Paks*

If you do not have the file, please create one with the name “Paks” and place the patch files in it.

CREATE AN OPEN ID USING **FACEBOOK**

Step 1

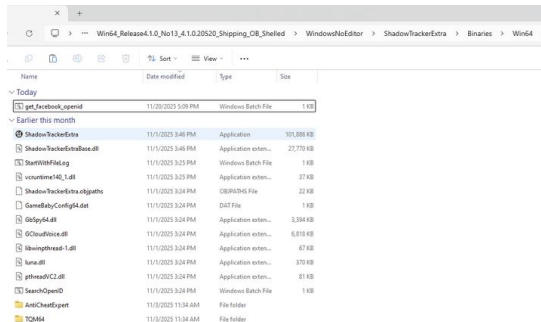

Download **get_facebook_openid.bat**

Step 2

Find

"\WindowsNoEditor\ShadowTrackerExtra\Binaries\Win64" folder, and place inside the folder

Step 3

Right click Run "get_facebook_openid.bat" as administrator. A black window will pop up.

Copy the number and fill it in the excel sheet shared in Page 18.

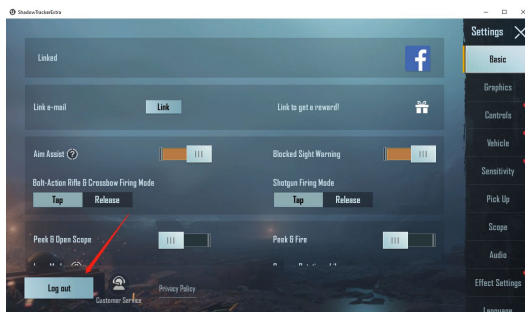

If you want to get other OpenID with different Facebook Accounts, see next slide.

CREATE AN OPEN ID USING **FACEBOOK**

Get other OpenID with different Facebook Accounts.

Step 1

Click Log out button. Go to “Settings” > “Basic” > “Log out”

OR

Step 1

If you are not able to see “logout”, please go to your PC path and look for:

C:\Users\(username)\AppData\Local

Then Delete the whole “ShadowTrackerExtra” folder **after** shutdown PC OB Client.

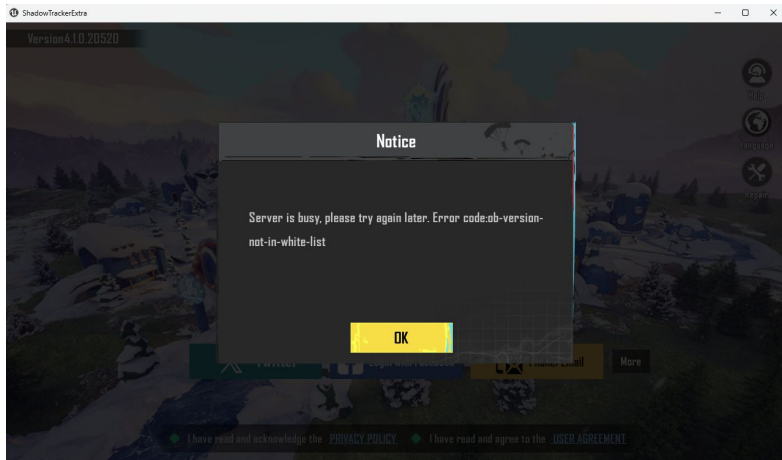

Step 2

Click “Continue with facebook” and login with another account.

Step 2

Click “Continue with facebook” and login with another account.

COMMON LOGIN ERRORS (1)

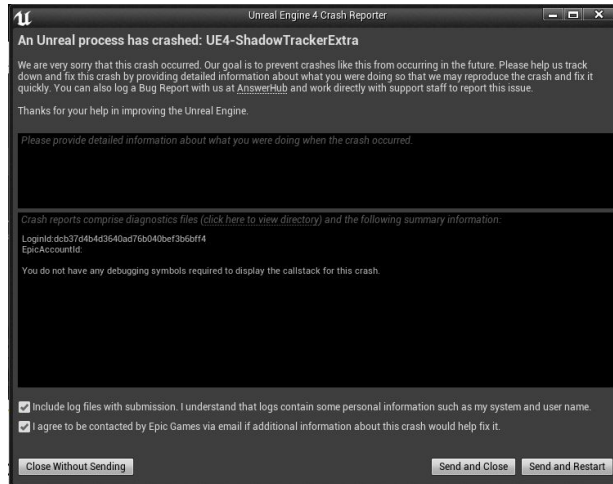

Description

This error means your access is not granted yet.

Solution

Please send email including the OpenID to Regional Esports Manager or refer to slide 18.

COMMON LOGIN ERRORS (2)

Description

After clicking Login with Facebook button, do not have any movement and stuck at loading screen. Close the client will then pop up Crash Reporting message.

Solution

This error happens for Microsoft Edge users as the login authorization pop up does not automatically appear on the browser. Go to your browser and paste this URL Address: <https://www.pubgmobile.com/cp/a20201222FacebookLogin/index.html>
Key in the Facebook Login info and your problem should be solved.
